

CAMD

Coalition Against Major Diseases

Founded by:

CRITICAL PATH
INSTITUTE

Improving the Path for Innovative Therapies

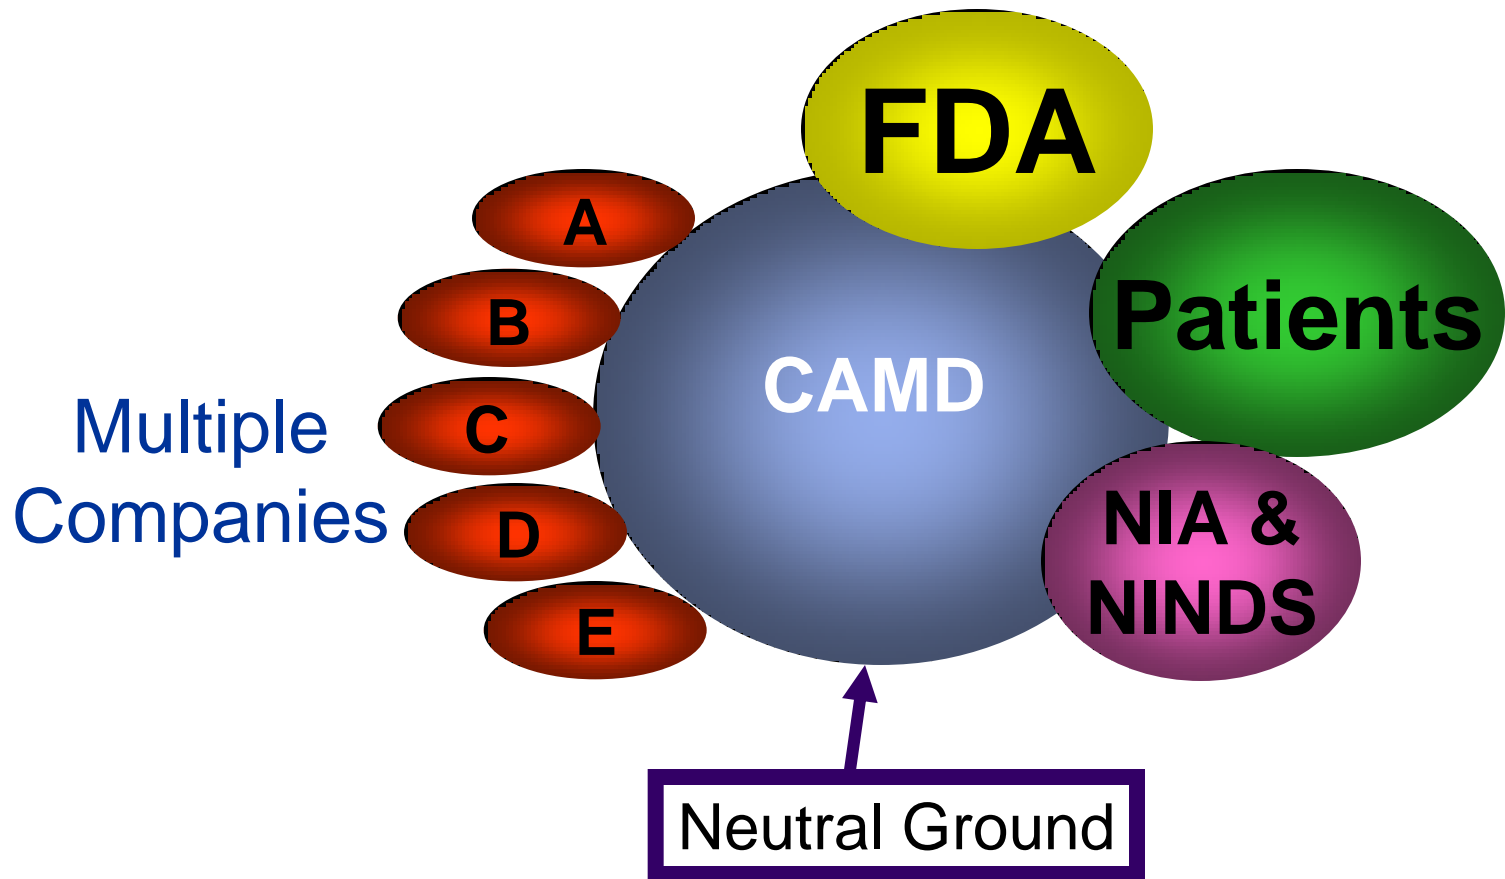

In collaboration with:

ENGELBERG CENTER for
Health Care Reform
at BROOKINGS

A Collaboration...

With a Mission

CAMD's Goal

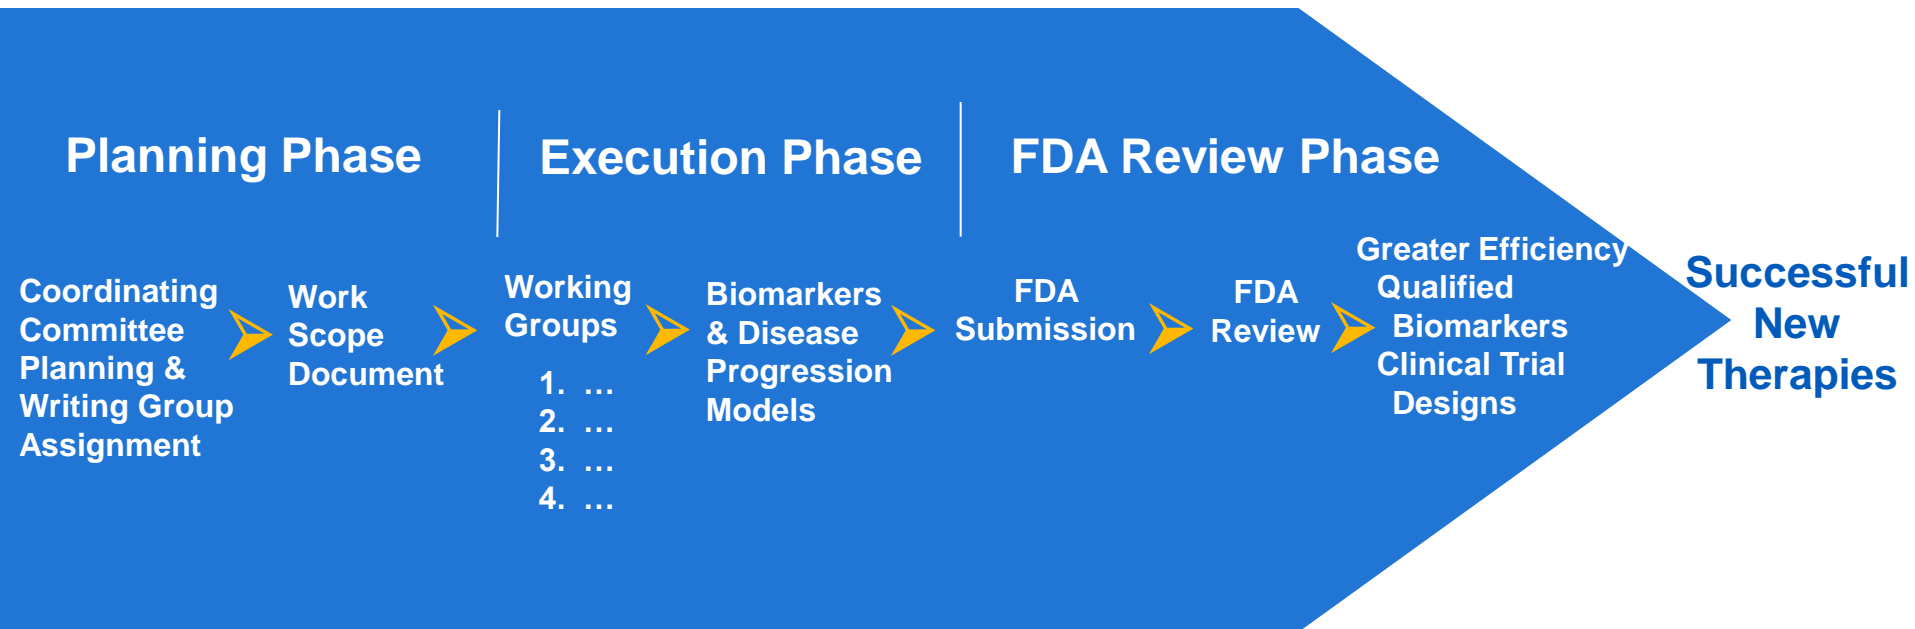

To develop new tools and methods that will enable faster development of innovative and effective therapies, with an initial focus on Alzheimer's and Parkinson's diseases.

Specific Aims

- ✦ To develop an integrated database of aggregated control group trial data in a standardized format
- ✦ To submit biomarkers to the FDA for possible qualification
- ✦ To submit quantitative models of disease progression to the FDA for possible qualification

Roadmap

Workgroups Established

- Data
- Disease Progression Modeling
- Biomarkers Evaluation
- Health Authorities Submissions
